

b+s Private Cloud CCaaS

Great flexibility and scalability with the powerful Cisco Contact Center from our geo-redundant Swiss cloud.

As a direct point of contact for existing and potential customers, your contact center must provide excellent customer service. Internally, agents should be able to work as efficiently as possible. The b+s Private Cloud CCaaS makes this possible by streamlining complicated systems and infrastructure while simultaneously resolving internal operational issues.

Our offering

CCaaS is a comprehensive package for contact center that offers a centrally located, wrap-around service. Three different SLAs guarantee reliable business operation, including IT administration, upgrades, and lifecycle management, all based on your needs. CCaaS offers all standard features required to operate a modern and target-oriented, multichannel contact center. The modular offering also includes a wide range of additional applications, which can be integrated into the service. Since no additional 3rd-party applications are needed, setup, integration, and operation are all streamlined.

Your advantages

CCaaS reduces investment and maintenance costs, eliminates the need for renewal & upgrades, and frees resources for core business demands. High scalability means agility and responsiveness to changing business requirements. Furthermore, with the pay-as-you-use model, only the services actually used are billed. Finally, Bucher + Suter's integrated products and options, together with many years of experience and proven competence, ensure optimum service.

Product features

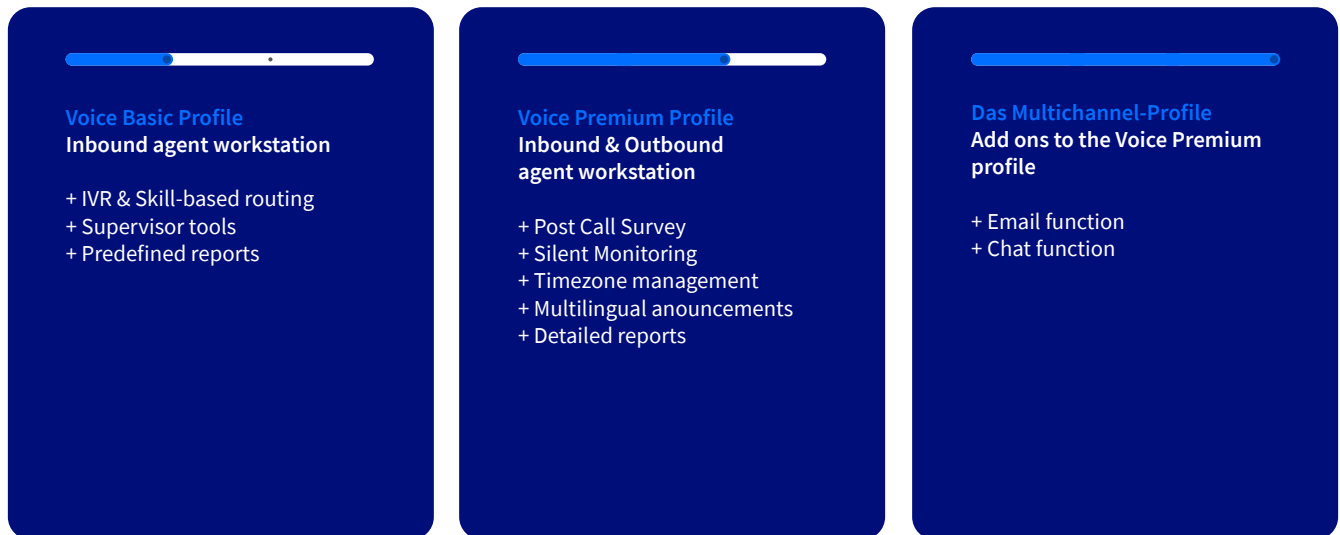

- Operation from two Swiss data centers
- High availability through geo-redundancy
- High scalability for contact centers with 50 or more agents
- Multichannel Routing: Voice, Email, Chat
- Web-based agents desktop
- Web-based supervisor console
- Real-Time Reporting
- CRM Integration
- Voice and screen recording
- Shift Planning (WFM)

Advantages at a glance

- Operating costs delivered in a pay-as-you-use service model, with monthly billing
- No investment or maintenance costs
- Effortless lifecycle management and upgrades
- No recurring renewal projects
- Increased agility with rapid agent activation and function adaptation
- Broad portfolio of additional applications for streamlined implementation of the cloud strategy
- Easy integration into existing company infrastructure
- Certified service with FINMA accepted audit report for financial service providers

The service

The service offers three function-based profiles:

All profiles offer a wide range of options for increasing efficiency and quality. The wide range of additional applications includes, for example Voice- and Screen Recording (RaaS), Shift Planning (Workforce Management), and CRM Integrations.

3

Eco-system partners

Bucher + Suter offers and operates solutions together with IT partners who assume the role of general contractor. All of these experts in modern collaboration solutions, are certified by Cisco, and are regularly audited.

Combination with UCaaS

If required, the telephone system functionality integrated on the same cloud platform maybe used as UCaaS (Unified Communication as a Service). UCaaS also offers all employees outside the contact center a variety of functions for modern and future-oriented business communication as a complete cloud solution.

Why Bucher + Suter?

Unparalleled expertise

With decades of experience in the industry, Bucher + Suter stands at the forefront of innovative customer service solutions. Our deep understanding of the unique challenges faced by businesses in various sectors allows us to deliver solutions that drive efficiency and enhance customer satisfaction.

Cutting-edge technology

Bucher + Suter leverages the latest advancements in technology to provide robust, scalable, and flexible solutions. Our integration with leading platforms ensures seamless connectivity, empowering your organization with tools that adapt to evolving business needs and technological landscapes.
